San Dimas, CA | (626) 272-5692 | Tprata@preventems.com

PROFESSIONAL SUMMARY

Data-driven marketing analytics professional and entrepreneurial leader with 8+ years of experience translating complex data into actionable business insights. Proven ability to design and deploy marketing measurement frameworks, automate reporting pipelines, and implement AI-powered systems that drive measurable client acquisition growth. Experienced managing cross-functional stakeholders, vendor relationships, and multi-client analytics engagements across healthcare, legal, apparel, and event industries. Proficient in SQL, Python, Google Analytics, Meta Ads Manager, CRM platforms (Salesforce, HubSpot), and advanced Excel/Sheets.

CORE COMPETENCIES

• Marketing Analytics & Measurement Strategy	• Cross-Functional Stakeholder Management
• SQL & Data Extraction / Querying	• Budget Planning & Financial Oversight
• Python Google Analytics Meta Ads Manager	• Vendor & Agency Management
• Data Visualization & BI Reporting	• Project Management & Process Improvement
• AI Agent Deployment & Funnel Automation	• Advanced Excel / Google Sheets
• CRM Management (Salesforce, HubSpot)	• Strategic Communications & Presentations

PROFESSIONAL EXPERIENCE

Independent Marketing & Analytics Contractor2024 – Present

Marketing Analytics Consultant | AI Implementation Specialist

- Deliver ongoing marketing analytics consulting to 6+ clients on retainer, including law firms, professional services companies, and consumer brands, designing measurement strategies and reporting frameworks aligned to business goals.
- Architect and deploy AI-powered client acquisition agents and automated marketing funnels within law firm practices, directly increasing lead volume and reducing manual intake overhead.
- Design and implement end-to-end marketing analytics for Shopify e-commerce platforms, including conversion tracking, funnel performance dashboards, and campaign attribution reporting.
- Extract, clean, and analyze marketing data across Google Analytics, Meta Ads Manager, and CRM platforms (Salesforce, HubSpot) to produce stakeholder-ready insights and actionable recommendations.
- Build automated reporting solutions and data pipelines using SQL, Python, and advanced Excel/Sheets, reducing manual reporting time and improving data accuracy.
- Translate complex multi-channel campaign data into executive-level presentations and dashboards, enabling data-informed budget allocation decisions.
- Manage vendor and agency relationships, ensuring data consistency, quality, and alignment across all reporting deliverables.

Prevent Medical Solutions

2022 – Present

Co-Founder / President / Board Member

- Co-founded and scaled an EMS company from startup to 580+ employees and a \$15M valuation, driving all strategic data, financial analytics, and operational reporting.
- Designed and maintained financial planning models, budget forecasts, and KPI dashboards used by the board and executive team to guide strategic decisions.
- Negotiated and managed contracts with event organizations and vendor partners, leveraging data analysis to evaluate ROI and performance outcomes.

- Built workforce analytics and hiring pipeline reporting systems supporting rapid headcount scaling and multi-site operational deployments.

Emergency 1 Response

2021 – 2022

Site Operations Manager / EMT-B

- Managed logistics, staffing, and operational data for temporary medical facilities at large-scale live events.
- Led cross-functional teams and coordinated multi-vendor resources under high-pressure timelines.

Insomniac Events

2021

Site Operations Liaison

- Coordinated operational readiness and logistics for dispatch centers and temporary hospitals servicing 600+ patients daily across major live events.
